

Earn College Credits in High School & Save on Tuition Costs

CREDIT 4 COLLEGE

JUMP START YOUR HIGH SCHOOL Student's College Career

Concurrent Enrollment allows students to jump start their college career by enrolling into courses that are 100% online. These credits are transferable to regionally accredited universities throughout the country. And, Concurrent Enrollment offers substantial savings on college tuition for students and their parents.

2007-2008 Average Annual Cost of College:

According to The College Board's recent study, the average annual cost of college increases roughly 6% each year. The following is the 2007-2008 average annual cost of college:

Type of Institution	Average Tuition and Fees	Average Tuition, Fees, Room, and Board
4-Year Public College/University	\$6,185	\$13,589
4-Year Private College/University	\$23,712	\$32,307

Concurrent Enrollment Benefits:

- Earn college credit while attending high school
 - Develop college transcript while attending high school
 - May qualify for high school credit (if approved by high school)
 - Opportunity to experience online learning
 - Provides high schools with additional college preparatory options for their high achieving, college bound students
 - Credit hours accepted by regionally accredited universities
 - Ongoing high school and student support through Credit 4 College
 - Affords students and families substantial savings in the overall cost of college education
 - The average 3-credit college course costs \$1,500.
- A 3-credit Concurrent Enrollment course costs just \$400.**
